

Meet the House Committee

My name is **Logan Gia Leonard** and I am a second year BEd (IntermediatePhase) student. I am twenty years old and a TRUE Gemini. I come from an enormous and female dominant family, and I am the baby (a literal baby) of 5 sisters.

If I am not complaining about having TEN modules for my degree, I am busy having a hazelnut cappuccino by MyBrew (we should go sometime). I am LITERALLY addicted to sushi, so if you ever want to go on a sushi date, I AM THERE! No matter the weather outside, you will always see me in my famous pink gown. I love anything in purple, it can be the ugliest looking doll in the world, if it's in purple, it's probably already owned by me.

I remember being so frightened to move into a residence. On the day of my move, I kept on trying to prolong the process of moving. When I arrived at Harmonie, everyone welcomed me with open and loving arms, and I strive to make you feel the love that I felt. Not to sound cliché, but Harmonie has really become my home away from home and the "friends" I've met through the journey has become my family. Whether I need someone to tell me if my chicken is cooked or to just offload the day "tea", there is always someone there. I cannot wait for you to experience what I have.

Look, I am not going to lie, I suck at writing, but I CAN TALK, believe me. If I knew how to use the text to speech option on word, I would be having a fat conversation with you now. To keep things short, I really look forward to meeting you! I'm stoked for all our future chats, coffee dates and socials. My door is always open for a cup of coffee, a chat and a Covid-friendly hug (is there even such a thing?)

SEE YOU SOOOOOOOOOOOOON !

Hi, there soon-to-be humans of
Harmonie :)

I'm **Trishé** and I'm the free-the-
nipple enthusiast of the group.
Currently studying BSc Human Life
Sciences because the system is not
cute, and your girl really wants to
be a doctor one day.

I'm a lover of many things- the ocean, moon and stars, tea, Harry Potter, chocolate, greenery, sunshine, and my friends (who happen to be a bunch of clowns, lol). I am also a proud plant momma and will probably introduce you to all my babies (yes, they have names!).

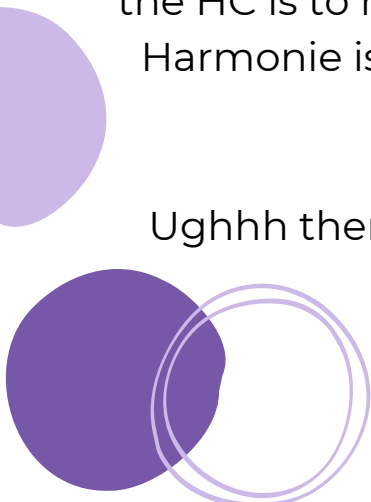

I am all the way from a tiny town on the west coast of the Northern Cape, called Port Nolloth. Harmonie has been my home for a while now and I've made SO many memories and lifelong friends here that I sometimes forget how far away from home I actually am. I am beyond excited for you to become a part of our little family and share some exciting experiences and joyful or sometimes sad moments with you!

This new part of your life will be fun, daunting, confusing, and exciting. I (still) don't have everything figured out but hopefully I'll be able to help or just cheer you on through it all! My goal on the HC is to help you feel seen, heard, understood, and valued.

Harmonie is a safe and encouraging environment for you to explore whom you want to be.

Ughhh there's still so much more I wanna tell you, but we'll leave that for a tea date later!

Love and light *insert yellow heart*

Hello new Harmonite!

Congratulations on being accepted into Harmonie - I am so excited to meet you all. My name is **Jamie and I come from a small town in the Eastern Cape called East London, which is about a 12 hour drive from here.**

Being so far away from home is extremely tough. I can't go home on weekends and I really miss not being able to give my mom a hug, but in saying that, Harmonie is now my second home and I couldn't imagine living anywhere else.

I will be starting my third year of law in 2022, so if you need to get out of a sticky situation, you know who to call. I love sunsets, going to the beach and I am completely addicted to iced coffee. I enjoy anything sporty and I am an adrenaline junky at heart, but at the same time, watching Netflix in my bed is my happy place. I am obsessed with Harry Styles, even having a delusional fantasy that he will one day be my husband. I am outgoing and spending time with my friends is one of my favourite things to do. Fun facts about me include that I am deathly afraid of needles and that my go-to karaoke songs are either "Truth Hurts" by Lizzo or "iSpy" by Kyle and Lil Yachty.

I am here to help you in any way I can, just give me a shout. Prepare yourself for loads of fun and for an iconic and unforgettable welcoming week. I can't wait to welcome you into Harmonie because Harmonie is now your home, as much as it is mine. See you soon!

All my love

To Harmonie's Newcomers

Hi there! I'm **Zoë Charles** and I want to wish you a warm and loving welcome into a space that you will make memories in, meet new people and build lifelong bonds.

I'm currently studying Human Life Sciences with Psychology and I love learning about the world around me, including those that live in it. I would consider myself to be a quiet person, but apparently I am wrong, and you will soon see what I mean when I say this.

I love spending time in nature, especially by the ocean, and stargazing, which is especially great during load-shedding. I definitely consider myself to be a tea-head so if you ever want to try out some flavoured tea or just have a chat with some biscuits, my door is always open.

I'm from Cape Town and basically grew up in Strandfontein but I'm currently living in the Northern Suburbs in Kuilsriver. In terms of my music taste, it goes across all genres and really depends on my mood, but I'm always open to suggestions. All in all, I don't think that a few words can properly cover who I am, but I hope that when we meet we get to know each other better.

Love and light

I am so ridiculously excited to meet each and every one of you. My name is **Nienke** and I'm in my third year of Chemical Engineering studies.

I grew up in Pretoria, took a gap year in Rustenburg (the one in North West not the wine farm) and then somehow convinced my family to move down to the Cape with me when I started studying in Stellenbosch.

We now live about 5km away from Muizenberg beach and are the "crazy Gauteng people" who go for swims without wetsuits in the middle of winter. I enjoy every part of the outdoors, especially hiking in crazy places with cool people! I'm also a fan of running – in fact I enjoy it so much you will probably see me running to class most days (definitely not because of being late).

The most special thing about Harmonie for me is being able to share my life with so many amazing people I might never have met otherwise. One of my personal values (that I share with the residence) is love, loving my neighbours (literally!) and I try to live this out in how I treat everyone around me.

Here are some quick tips that I have learnt from my time at university so far: a bicycle will (usually) get you to places on time, there is always more storage space under the bed, a room is only complete with a few windowsill-plants and a fluffy nightgown is definitely acceptable attire.

Hello future Harmonite!

My name is **Abi and I will be starting my third year of BSc Human Life Sciences. I really love dinosaurs and working with children. My dream is to become a child psychologist (and writer on the side).**

I come from a small town in Mpumalanga, so I'm quite far from home. Coming to Stellies and saying goodbye to my family, knowing that I might not see them very often was quite difficult for me.

I remember our move in morning so well, I was shy and scared, but mostly excited to start the new chapter in my life. I arrived at Harmonie and as I walked up to the door our welcoming HC came up to me with the biggest smile and welcoming arms greeting me by my name! You read that right, I was really (pleasantly) surprised to hear the HC members knowing a little bit about me. I soon learned that there was a whole house of roughly 160 Harmonites that were excited to get to know me. Harmonie really made me feel welcome, loved and supported in everything I did.

You can imagine the difficulty of us having to leave after being at our new home for just 3 months. In 2020 my first year was cut short and COVID and lockdown took its toll on me. But upon returning again in 2021 the house supported me, and my close friends helped me to get through one of the most difficult times of my life.

I really wish that you will experience this exact love and comfort that I have received. No matter your past or presence, the Harmonites will always treat you like a sister.

Welcome home beautiful human :)

Much love
