INFORMATION TECHNOLOGY

PHISHING FROM STAFF EMAIL

Three separate emails with the subjects "Information Service", "Online course" and "IT communication" from a compromised staff email address were sent to staff and students recently. The emails ask you to click on a link which will open an incident logged on the "Self Service Portal", click on a link to complete a survey or activate two-factor authentication. One of these used Information Technology's own branding to try and phish our staff and students.(also see images below)

None of these are legitimate emails, but phishing attempts from a compromised university account.

By clicking on links and providing your information, you give criminals access to your personal information and your accounts.

- *Immediately change your password on www.sun.ac.za/password.*
- *Contact the IT Service Desk by [logging a request](#) or calling 808 4367.*
- *More information is available on our [blog](#) and [Twitter](#).*

Die integriteit en vertroulikheid van hierdie e-pos word deur die volgende bepalinge bereël. [Vrymarinskloosude](#)

Subject: IT Official communication

Our University community has suffered from many phishing and scam attacks hereby exposing staff sensitive confidential information. Hence, Information technology service has initiated the two-factor authentication login method **mandatory** for all users.

What's new?

When ever a login attempt is made to your account, a verification code will be sent to your mobile phone to confirm its you login in.

Review www.sun.ac.za/booclient-services/Two-factor_auth to get started with this service

Note:- You are meant to login from your personal device to save your IP address in our database for more efficiency of this service

IT service will not be held responsible for any compromise of accounts that never keyed in this service!
