### E-WASTE PROGRAMME STILL GOING STRONG

*The IT Division's e-waste programme continues to quietly do the right thing behind the scenes.*

*During the period July 2012 to April 2013, Cape e-Waste Recyclers, our e-waste contractors, removed the following items from the on-campus e-waste depot for responsible disposal and recycling:*

- 325 Computers
- 162 Printers and Scanners
- 269 Monitors
- 3 boxes of general e-waste.

*Remember, if you have any e-waste lying around at home or in your office, contact us and we'll help you to get rid of it without harming the environment.*

*The procedures by which IT assets should be decommissioned and placed into the e-waste stream are detailed on the IT Help wiki: [e-Waste Procedures](#).*
