ONLINE SURVEY TOOL FOR SU STAFF AND STUDENTS

Checkbox[®]

The web-based e-Survey service (SUNSurveys) is available to support academic staff and students of the University of Stellenbosch using online surveys for their academic research. SUNsurveys is also regularly used for staff opinion polls, voting and service delivery surveys.

Information Technology uses [Checkbox](#) as platform for our surveys. Checkbox is an intuitive survey creation tool with real-time reporting which allows for surveys to be customised.

To register for use on Checkbox and send out official Stellenbosch University surveys, you can apply for the service [online](#). More information on our [Service Catalogue](#).

Once you have registered, support will be provided throughout to enable you to set up your survey, as well as training if needed. Additionally Checkbox has detailed [help guides](#) which will assist you with any potential problems you may encounter.

Take note that before you are allowed to send out a survey for research purposes, you will need institutional permission. [Full information on the process can be found on the Information Governance website](#)

If you have any enquiries, please log a request on our ICT Partner Portal at [ICT Partner Portal](#).
