TOO MANY LINE OPTIONS TO CHOOSE FROM?

Nowadays we're fortunate (depending on our budgets of course) to have internet access at home. We can quickly Google a recipe instead of scurrying to find the right cookbook or piece of paper you wrote the recipe down on somewhere. Or quickly look up the name of that actor whose name is on the tip of your tongue and you're convinced your husband has the wrong one. Unfortunately being spoilt for choice also brings more confusion at times. On top of having to choose the right service provider, you can also choose your line speed.
