What is the function of the AAC? | Wat is die funksie van die ABR?

The Academic Affairs Council, also known as the AAC, is a Student Representative Council ('SRC') substitute. The Council consists of the chairperson and vice chairperson of all ten faculties' student councils as well as a five-person executive committee.

Ultimately, the AAC works towards academic success as a supportive body, through the collaborative work of all its members as well as other groups. Queries are handled in accordance with a model that encourages a collective effort in which students are supported in and around the academic environment. From the class representatives, to the AAC, SRC and finally to Management, students are encouraged to seek support in order to guarantee their own well-being and success.

Lastly, The AAC has committed itself to serving the students at Stellenbosch University and should therefore be held accountable in that regard. The structure of the Council allows for a system of checks and balances to ensure the effective, sustainable, and consistent effort towards academic success for all.

Die Akademiese Bestuursraad, of 'ABR' vorm deel van die studenteraad die Universiteit van Stellenbosch. Die raad bestaan uit die voorsitter en ondervoorsitter van elke akademiese fakulteit, asook vyf ex officio lede. Die ABR dien as 'n ondersteunende liggaam wat sien dat elke akademiese navraag beantwoord word tot die beste van ons vermoë.

Klagtes word vanaf die klas verteenwoordigers deur die ABR na die studenteraad en tot hoër bestuur geneem om sodoende ondersteuning te bied aan studente.

Ons moedig ook studente aan om ondersteuning te vind om hul eie welstand en akademiese sukses te verseker.

Die ABR is toegewy om die studente van 'US' te help en moet ook so aanspreeklik gehou word. Die struktuur van die Raad maak voorsiening vir wigte en teenwigte om effektiewe, volhoubare en 'n konsekwente poging tot akademiese sukses te behaal.
