

KDIGO: Improving Global Outcomes®

Kidney Disease Improving Global Outcomes® (KDIGO) seeks to improve the care and outcomes of kidney disease patients worldwide by promoting coordination, collaboration, and integration of initiatives to develop and implement clinical practices guidelines.

KDIGO's website offers extensive summary tables of current dialysis clinical practice guidelines in Europe, Canada, Australia, UK and US.

The KDIGO's website posts updates regarding its four global clinical practice guidelines:

- Prevention, Diagnosis, Evaluation and Treatment of Hepatitis C in Chronic Kidney Disease, under the leadership of Drs Michel Jadoul and David Roth (Published APRIL, 2008)
- Diagnosis, Evaluation, Prevention and Treatment of Chronic Kidney Disease related Mineral and Bone Disorders (CKD-MBD), under the leadership of Drs. Tilman Drüeke and Sharon Moe (Anticipated Publication 2009)
- Care of the Kidney Transplant Recipient, under the leadership of Drs. Bertram Kasiske and Martin Zeier (Anticipated Publication - 2009)
- Acute Kidney Injury (AKI), under the leadership of Norbert Lameire and John Kellum (Anticipated Publication – 2010)
